

Adam DiNuovo

*Shorebird Monitoring and Stewardship Program Manager
Audubon Florida*

Adam DiNuovo has been the Shorebird Monitoring and Stewardship Program Manager for Audubon FL since April 2015. He has worked on seabird and shorebird research projects from coast to coast for the past 20 years. Projects have included American Oystercatchers in SC, Piping Plovers in the Gulf of Mexico following the Deepwater Horizon oil spill and Atlantic Puffins and Arctic Terns in ME. Prior to his arrival in Florida, he was the Research Coordinator for the California Least Tern and Western Snowy Plover Program at San Diego Zoo Global's Institute for Conservation Research and the Sanctuary Manager for National Audubon's Project Puffin in ME.
