About FIU

Florida International University is Miami's public research university, focused on student success. According to U.S. News and World Report, FIU has 42 top-50 rankings in the nation among public universities. FIU is a top U.S. research university (R1), with more than \$200 million in annual expenditures. FIU ranks 15th in the nation among public universities for patent production, which drives innovation, and is one of the institutions that helps make Florida the top state for higher education. The [Next Horizon](#) fundraising campaign is furthering FIU's commitment to providing students Worlds Ahead opportunities. Today, FIU has two campuses and multiple centers, and supports artistic and cultural engagement through its three museums: [Patricia & Phillip Frost Art Museum](#), the [Wolfsonian-FIU](#), and the [Jewish Museum of Florida-FIU](#). FIU is a member of [Conference USA](#), with more than 400 student-athletes participating in 18 sports. The university has awarded more than 330,000 degrees to many leaders in South Florida and beyond. For more information about FIU, visit www.fiu.edu.

Job Summary

Assists with leading water avian science and stewardship programs for the Rookery Bay National Estuarine Research Reserve and will help implement habitat monitoring conducted by the research team. Performs regular field surveys, maintain the seasonal closing of nesting areas, maintain databases, and conduct analyses that translate monitoring information for management strategies. Works closely with outside scientists, students, and resource managers to coordinate field work (monitoring, closures, and public relations) and synthesize information. Collaborates with greater community through education opportunities, collaborations with volunteers, and publications. This position is located at Rookery BayNational Estuarine Research Reserve (Naples, FL) and reports to the Research Coordinator.

- Conducts periodic coastal water bird surveys throughout the year; Seasonally record bird nesting behavior and production success
- Coordinates with volunteers, students, external scientists, and other agencies to conduct wildlife and habitat monitoring
- Works with partners to synthesize data and contribute to peer-review literature.
